FOR IMMEDIATE RELEASE

**MODE TRANSPORTATION NAMED A 2014 GREAT SUPPLY CHAIN PARTNER
BY SUPPLYCHAINBRAIN MAGAZINE**

DALLAS, TX (August 12, 2014) – Mode Transportation, a leading asset-light third-party logistics company focused on delivering truckload, less-than-truckload, intermodal, air and ocean services, has been chosen by SupplyChainBrain as a *2014 Great Supply Chain Partner*.

“Mode Transportation is very pleased to be chosen by SupplyChainBrain readers as a top supply chain partner,” said Jim Damman, President of Mode Transportation. “We work hard to forge strong and lasting relationships with our customers that continue to build as their business grows. Our customers and their needs are very diverse, making recognition of the customized services we provide extremely satisfying.”

To receive this recognition, customers nominated Mode Transportation based on criteria including exceptional technology, logistics and transportation or consulting solutions that made a significant impact on their supply chain efficiency. The survey was conducted over six months through an online poll of supply chain professionals. These individuals nominated vendors and service providers they felt contributed significantly to their company’s supply chain performance.

“Congratulations to Mode Transportation for being named one of SupplyChainBrain’s *2014 Great Supply Chain Partners*,” said Brad Berger, Publisher of SupplyChainBrain. “Now in its 12th year, our prestigious list of 100 Great Supply Chain Partners highlights a select list of companies whose solutions and services have been so impressive that their customers took the time to let us know.”

Mode Transportation will appear in the 2014 July/August issue of SupplyChainBrain magazine as a celebrated member of this year’s 100 Great Supply Chain Partners. The issue will also be available online at www.supplychainbrain.com.
